Subject: Idaho Energy Complex Update

This letter is in response to your inquiry regarding Alternate Energy Holding's COLA submittal being delayed until the fourth quarter 2009. The reason for the delay is that the initial reactor site in Owyhee County Idaho was unsuitable due to seismic faults that were not initially identified; therefore we had to find a new site in Elmore County, near Hammett, ID.

In addition, we are considering a different technology for the reactor.

When we have further information we will update NRC.

Sincerely,

Angie Haynes
