Dear Mr. O'Reilly:

WATTS BAR NUCLEAR PLANT UNIT 1 - NRC-OIE REGION II INSPECTION REPORT
50-390/82-03 - ADDITIONAL INFORMATION

The subject inspection report dated February 19, 1982 cited TVA with a deviation. Our response to that deviation was submitted on March 24, 1982.

In that response, TVA committed to revise the Watts Bar FSAR table 14.2-1 and chapter 9 by July 15, 1982. However, as discussed with Inspector R. V. Crlenjak on July 27, 1982, TVA now expects this commitment to be complete by October 15, 1982. This will allow sufficient time to complete the necessary internal coordination and include it in an FSAR amendment.

If you have any questions, please get in touch with R. H. Shell at PDS 858-2688.

To the best of my knowledge, I declare the statements contained herein are complete and true.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
