Attn: Mr. James P. O'Reilly, Regional Administrator
101 Marietta Street, NW, Suite 2900
Atlanta, Georgia 30303

Dear Mr. O'Reilly:

WATTS BAR NUCLEAR PLANT UNITS 1 AND 2 - NRC-OIE REGION II INSPECTION REPORT
50-390/82-05, 50-391/82-03 - SUPPLEMENTAL INFORMATION - VIOLATION
50-390/82-05-01, 50-391/82-03-01

The subject inspection report cited TVA with one Severity Level IV and one Severity Level V Violation in accordance with 10 CFR 2.201. My letter to you dated November 9, 1982 contained two enclosures. Enclosure 1 addressed TVA's programmatic improvements as requested in the subject inspection report. Enclosure 2 provided responses to two items of noncompliance. Additional information was provided on Enclosure 1 and Enclosure 2 on January 4 and February 15, 1983, respectively. Supplemental information was provided on March 18, May 10, and July 14, 1983. Supplemental/ revised information was submitted on May 24, 1983.

As discussed with NRC-OIE Inspector Paul Fredrickson on September 28, 1983, the date of September 30, 1983, for completion of corrective actions indicated in our final report on this matter would not be met. The scope of the work required for resolution of this matter is larger than initially anticipated. The corrective action on this matter will be completed by December 12, 1983, for unit 1 and January 9, 1984, for unit 2.

If you have any questions, please get in touch with R. H. Shell at FTS 858-2688.

To the best of my knowledge, I declare the statements contained herein to be complete and true.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
