Gentlemen:

The University of Connecticut Health Center requests a license amendment for our Plutonium-239 instrument calibration sources. Specifically, we request to amend license item 6.L. to possession-storage only for Pu-239. We plan to either transfer these sources to a licensed entity or dispose of as radioactive waste. We understand through Ms. Shirley Crutchfield, of NRC's Accounts Receivable Team, that we will not incur an annual licensing fee for these sources with this license amendment. We will notify you when these sources have been transferred.

Please contact Kenneth Price, the University of Connecticut Health Center Radiation Safety Officer at (860) 679-2250 if you require further information.

Respectfully,

Leonard P. Paplauskas
Associate V.P. for Research, Emeritus
