Comment on Figure 2.4-2:

On page 2-21, Figure 2.4-2 shows U_3O_8 as the product of yellowcake precipitation. The actual product is uranyl peroxide ($UO_4(aq)$). U_3O_8 is a thermal decomposition product of $UO_4(aq)$. The text on pages 2-22 and 2-23 describe the process correctly, it is only the figure that is incorrect.
