APPENDIX B

NOTICE OF DEVIATION

Tennessee Valley Authority
Watts Bar 2

Docket Nos. 50-390 and 50-391
License Nos. CPPR-91 and CPPR-92

Based on the results of the IRC inspection conducted on May 31 - June 3, 1983, certain of your activities appear to deviate from your commitment to the Commission as indicated below:

In the licensee's letter to the Director, NRC Region II, dated April 29, 1982, the licensee reported in accordance with 10 CFR 50.55(e), that the licensee would take corrective actions on NCR M78-5E that other course descriptions would be developed and presented to the appropriate personnel by December 31, 1982.

Contrary to the above, the other course descriptions have not been developed and presented by December 31, 1982, and the licensee has failed to request the NRC for approval of an extension of the time to complete the work committed.
