Brian

During drop-in-visit of August 21, 2008, Amy Monroe (SCE&G) indicated that the current review process used for the Bellefonte FSAR is acceptable to them (3 Business days for their review of draft RAI to determine if they need a conference call to discuss the RAI prior to issuance of Final RAI letter and 30 day response time for site specific RAIs). Amy Monroe will be sending CC list for receiving RAIs (draft and final) and will provide the official contact (addressee name)info for RAI letters in next few days.

Thanks, Ravi,

Could you send us Amy's (and anyone else on the Summer licensing team) contact info?

Thanks,
Brian
