Attachments: Well Project Objective and Scope.doc

Hey Guys,

Attached is part of Section 2 of the recent SOW for next week's well installation activities at SBS. Please make your reservations now to attend, the grandstands are filling up and you may have to make do with nose-bleed seats.

Let me know if have any comments and if you would like to stop by and when, so that I or Dick Johnson can ensure something will be going on. The drilling work may be scheduled with days on and off, similar to an offshore job.

Dick's phone number: 970-248-6022

Scott,

Attached is a section of our Statement of Work.

Dick
