All services will be evaluated to determine whether or not they meet the performance requirements of the task order. When the performance requirement is not met, the deficiency will be brought to The Contractor's attention. The Contractor will be allowed to respond to the deficiency and the NRC will evaluate the response.

- a. For service that meets the performance requirement of the contract, The Contractor shall be paid the monthly task order price for that service.
- b. ** REFERENCE: See Program implementation Plan (PIP) Service Level implementation Phase-in Plan (Addendum 1, March 25, 2002). The Contractor shall report on 54 Service Level Requirements (SLRs) beginning April 2002. Forty-six SLRs are included in the monthly performance analysis. However, the incentive/Deduction model shall not be applied to the individual SLRs until the triggering event to "turn on" the SLR has occurred, and (2) the data collection technique is reviewed and accepted by the NRC/EER Management Integrated Process Partnership Team (IPPT).

Upon the determination that the SLR data is valid and accurate, the IPPT will direct the Contractor to include the SLRs in the reporting period's incentive/deduction analysis.

Each SLR is associated with a triggering event. Each event, when completed, shall begin the SLR implementation process. The seven triggering events with the number of SLRs are provided below:

- (1) April 1, 2002, the start of seat management services (25 SLRs);
- (2) Completion of desktop refresh (6 SLRs) (Scheduled for ~~6/6/2002~~; 12/31/02
- (3) Completion of printer refresh (4 SLRs)(Scheduled for ~~6/16/2002~~; 3/31/03
- (4) Completion of network refresh (7 SLRs)(Scheduled for ~~9/10/2002~~; 11/30/02
- (5) Completion of server refresh (6 SLRs)(Scheduled for ~~9/24/2002~~; 12/31/02
- (6) Approval of the catalog, (4 SLRs)(Phase 1 - ~~6/1/2002~~, Phase 2 - ~~7/1/2002~~; and; 9/30/02; 10/31/02
- (7) Acceptance of the new D&I IDPM process (2 SLRs) (~~7/1/2002~~) 9/30/02

Following the April 1, 2002, SLR implementation, The Contractor shall begin review of all processes and procedures. Each triggering event shall be assessed by the IPPT to determine if the collection and validation process is required, or if the SLRs can be included immediately in the SLR Incentive/Deduction Model.

If the Contractor fails to meet the performance requirement for a service under surveillance by the method shown on the PRS, the NRC will calculate payment as follows:

The maximum task order payment per month for all services is multiplied by the maximum payment percentage for the specific service to determine the maximum payment for acceptable service. This payment is multiplied by the percentage corresponding to the number of defects (number of SLRs not met) to determine the percentage of the task order price that The Contractor will not be paid for the Seat Management service. The total number of defects found (number of SLRs not met), not just those in excess of the reject level, are used to determine the percentage of the sample found unacceptable. The percentage of samples found unacceptable subtracted from 100% determines the percentage found acceptable. EFFECTIVE -8/1/2002 for the SLRs that began with the triggering event on April 1, 2002.

(4) *****Incentive Service Achievement - EFFECTIVE June 1, 2002.**

Minimal Service Achievement-

Eighty percent of all eligible service levels must be met for The Contractor to have met minimal service levels for the reporting period.

Incentive Service Achievement

The following conditions must be met for The Contractor to achieve incentive service levels:

- (1) Minimal service levels must be met for current and previous month;
- (2) Service levels #20 - desktop availability, #27 - server availability, #37 - printer availability, and #41 - communications availability must be met; and
- (3) An incentive-level threshold of 85% must be met for service level #3 - percent of tickets closed or isolated on first call.

INCENTIVE TABLE EFFECTIVE

If The Contractor achieves the above service levels a incentive amount of \$10,000 will be paid for that month. An incentive amount may be earned each month in accordance with attachment number 35B. However, an incentive not earned in the applicable month cannot be earned in future months.
