Subject: 1st and 2nd Quarterly Status Reports for the Nuclear Criticality Safety Improvement Project

Gerry,

The NRC staff reviewed the Westinghouse Electric Company's March 31 and July 7, 2008, submittals of the Quarterly Status Report for the Nuclear Criticality Safety Improvement Project, covering the periods for the first and second quarters of January 2008 to March 2008, and April 2008 to June 2008, respectively. This submittal is required under Safety Condition S-3 of SNM-1107. The report has been shared with the NRC staff and we have no questions at this time. We will continue to monitor the project's progress, and an inspection may be performed at a future date, in accordance with our inspection schedule.

If you have any questions, feel free to call me at 301-492-3116.

Nilda Rivera
