Completion of NRC Commitment

- References:
- (1) Letter, G.T. Gibson to Document Control Desk (NRC), "Change to NRC Commitments," dated February 12, 2008 (ABR-AE-07000021)
 - (2) Letter, Paul Kallan (NRC) to Gregory Gibson, "Request for Additional Information, Letter Number One, Related to the Environmental Report for the South Texas Combined License Application" dated May 19, 2008
 - (3) Letter, G.T. Gibson to Document Control Desk (NRC), "Response to Requests for Additional Information," dated August 14, 2008 (ABR-AE-08000063)

Reference 1 committed to revise the Combined Operating License Application (COLA), Part 3, Environmental Report (ER), sections on terrestrial ecology to describe "important species" in a more consistent manner in COLA Revision 2 (currently scheduled for October 2008). Subsequently, reference 2 also requested this information as part of the Request for Additional Information (RAI) process [question # 2.4.1-1]. In reference 3, we provided the details on our proposed resolution of this issue, and stated that the appropriate changes will be incorporated into the next routine revision of the COLA following NRC acceptance of our RAI response.

Our COLA Revision 2 scope has now been frozen; subsequent changes will be reflected in Revision 3 (scheduled for April 2009). As we have not yet received NRC acceptance of the RAI responses, we want to note that the changes discussed in reference 3 will be incorporated into COLA Revision 3.
