Ref.: 1. Letter, Peter J. Habighorst to, R.E. Link "Request for Additional Information Regarding The Safety Evaluation Report For AREVA NP, INC. Richland Fuel Fabrication Facility License Renewal; License No. SNM-1227, Docket No. 70-1257 (TAC L31975)), July 31, 2008

Gentlemen:

Subject: RAI Request dated July 31, 2008 (TAC L31975)

In reference 1, the NRC requested that AREVA NP provide additional information regarding the referenced license renewal application within 30 days of receiving the subject request.

In initial discussions with our NRC Project Manager, it was requested that AREVA submit its response to Environmental Protection RAI #3 to support the environmental assessment as soon as possible. The response to RAI #3 of the Environmental Protection Section was sent to the NRC on August 15, 2008 via an e-mail as requested to Raphael Rodriguez, NRC Project Manager from Loren Maas, AREVA Licensing and Compliance Manager, Richland Site.

Additionally, we were initially requested to send RAI responses in logical groups as we completed their composition but then later informed that we should only send all responses at one time upon the completion of all remaining RAI's.

AREVA requests additional time beyond the NRC requested 30 days for the remaining RAI responses and estimates that this complete package will be provided by October 3, 2008.

If you have questions, please contact me on 509-375-8409.

Very truly yours,
