*On September 10, 2008, NRC staff (Brian Hughes and Brad Harvey) participated in a telephone conference call with Duke representatives and observers regarding the staff's review of the W.S. Lee Units 1 and 2 COL application. The purpose of the call was to discuss requests for additional information concerning FSAR chapters 2.3.1,2,4,5.*

*The discussion focused on the applicant's request to clarify usage of certain data sets such as NOAA vs NWS. At the conclusion of the call, staff informed Duke that one question would be deleted since the reference was already listed. And a portion of another question dealing with climate change was deleted, but may be revisited in the future.*
