Subject: Status of FA documents
(NOTE: This will be used as the Documents Title in ADAMS)

Summary: XenoBiotic Labs provided a partial response dated April 23, 2008 stating that funds were set aside in the agreed-upon amount, and that they would provide the FA documents by the end of May.

Dr. Lewis stated that the documents from the bank were not properly prepared, and they are trying to get the bank to provide new documents. They had expected them by the end of August, but the documents are still not available. He was away on vacation the past few weeks, and said that he would contact the bank again this week. He asked for 30 days to get the documents to us, then requested by the end of October. When I pointed out that they began the documents process in April, and that the required updated of the FA began in spring 2007, he and I agreed that the middle of October would be acceptable.

Action Required: Telecon to LAT for licensing package.
