SUBJECT: Cumberland Cardiology, PSC

License No. 47-31272-01

Tax ID [REDACTED]

To Whom It May Concern,

Cumberland Cardiology has closed its practice located at 6007 US Route 60 East, Suite 308, Barboursville, WV 25504.

Please accept this correspondence as a termination of our NRC license # 47-31272-01. There was no radiologic material ever purchased or possessed under this license.

Please call if I can be of any further assistance.

Sincerely,

David Legenza
Director, Satellite Offices

RE: REGISTRATION No. 60309

ATTN: Radiation Safety Officer,

The registration for the use of radioactive materials at the address above or at temporary job sites in West Virginia has been reviewed based on information which you have provided on the agency application for registration or renewal of the registration. The use of radioactive material in accordance with the provisions of the Radiological Health Rules is governed by Title 64, Code of State Rules, Series 23. The term of the registration is three (3) years. The registration expiration date is 3/17/2011. The activities must be conducted by authorized users concurrent with the conditions of your Agreement State license or U.S. NRC license [47-31272-01] taking note of the materials license expiration date and/or general license provisions.

You are reminded to report any changes in the conditions of the registration by notifying the agency in writing within 10 days of the change. This includes amendments or termination of your license. If you need additional information please contact the Radiological Health Program at the address below, or go to the internet web page: http://www.wvdhhr.org/rtia/radiological_health.asp.

Sincerely,

A handwritten signature in black ink, appearing to read "Dan Hill".

INSTRUCTIONS FOR COMPLETION OF FORM 2R APPLICATION FOR REGISTRATION OF RADIOACTIVE MATERIAL FACILITIES

1. Do not write in blanks designated office use only or (date rec'd) on Form 2R. Do not enter any information in the areas for facility type, specialty code or county. This will be completed by the agency upon receipt.
2. Enter information in the Registrant Information section, including the address for the physical location of the radioactive materials. Please indicate if you have an alternate preferred mailing address for regulatory correspondence and billing. Indicate if materials are used at temporary job sites in the State of West Virginia (mobile nuclear medicine or industrial radiography, etc.) Enter the federal tax identification number (FID). Use the space below to identify the authorized users with adequate training for each isotope or radio-pharmaceutical used.
3. The form must be signed and dated by a responsible party such as the company president, a licensed practitioner of the healing arts, or the radiation safety officer (RSO). Enter the U.S. NRC license number, exp. date, or enter GL for a general license.
4. Mail the form to: Radiological Health Program, Capitol and Washington Sts. 1 Davis Square, Suite 200, Charleston, WV 25301-1798. Fax copies may be sent, however, the originals must be mailed to complete the registration process. If you have any questions, please call 304-558-6772.

AUTHORIZED USER NAME (Print)	ISOTOPE / QUANTITY	PURPOSE
Richard Ansinelli, M.D.	35.100/As needed	Medical Use
	35.200/As needed	Medical Use

5. ATTACH PAYMENT OF REGISTRATION / RENEWAL FEE (\$120)
 Checks payable to: BPH [check enclosed?]

Please note the requirements of the Radiological Health Rules in 64-CSR-23:

The person possessing each registrable item shall renew such registration with the agency at a date to be specified by the agency not later than within six (6) months of the effective date of this rule and every three years thereafter. Except as provided in Subdivision 5.9.b. the registrant shall notify the agency in writing within ten (10) days after any change which renders the information on registration no longer accurate. In the case of disposition of radiation sources, such notification shall specify the recipient of these sources. The registrant is required to notify the agency of the use of radiation sources at a temporary location other than the designated storage location, and provide updated copies of U.S. NRC or Agreement State license documents. Please refer to the Radiological Health Rules, Parts 11 and 12 for additional requirements for the registration and use of radioactive material.

MATERIALS LICENSE

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 36, 39, 40, and 70, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations, and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

Licensee	
1. Cumberland Cardiology, P.S.C.	3. License number 47-31272-01
2. 6007 U.S. Route 60 East, Suite 308 Barboursville, West Virginia 25604	4. Expiration date September 30, 2017
	5. Docket No. 030-37536 Reference No.

6. Byproduct, source, and/or special nuclear material	Chemical and/or physical form	8. Maximum amount that licensee may possess at any one time under this license
A. Any byproduct material permitted by 10 CFR 35.100	A. Any	A. AS needed
B. Any byproduct material permitted by 10 CFR 35.200	B. Any	B. As needed
9. Authorized use:		
A. Any uptake, dilution and excretion study permitted by 10 CFR 35.100.		
B. Any imaging and localization study permitted by 10 CFR 35.200.		

CONDITIONS

- 10. Licensed material may be used or stored only at the licensee's facilities located at Suite 308, 6007 U.S. Route 60 East, Barboursville, West Virginia.
- 11. The Radiation Safety Officer for this license is Richard Ansinelli, M.D.
- 12. Licensed material is only authorized for use by, or under the supervision of:
 - A. Individuals permitted to work as an authorized user in accordance with 10 CFR 35.13 and 35.14.
 - B. The following individuals are authorized users for medical use as indicated:

Authorized Users

Richard Ansinelli, M.D.

Material and Use

- 13. In addition to the possession limits in Item 8, the licensee shall further restrict the possession of licensed material to quantities below the minimum limit specified in 10 CFR 30.35(d) for establishing decommissioning financial assurance.
- 14. The licensee is authorized to transport licensed material in accordance with the provisions of 10 CFR Part 71, "Packaging and Transportation of Radioactive Material."
- 15. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below. This license condition applies only to those procedures that are required to be submitted in accordance with the regulations. Additionally, this license condition does not limit the licensee's ability to make changes to the radiation protection program as provided for in 10 CFR 35.26. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.

September 26, 2007

Docket No. 03037536
Control No. 140981

License No. 47-31272-01

Richard Ansinelli, M.D.
Radiation Safety Officer
Cumberland Cardiology, P.S.C.
6007 U.S. Route 60 East, Suite 308
Barboursville, WV 25504

**SUBJECT: CUMBERLAND CARDIOLOGY, P.S.C., NEW LICENSE, CONTROL NO.
140981**

Dear Dr. Ansinelli:

This refers to your request for an NRC license. Enclosed with this letter is the license. Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

When submitting future license amendments, please have the document signed by a management representative rather than the Radiation Safety Officer. The NRC views a letter signed by a management representative as indication that management has reviewed the application and concurs in the statements and representations contained therein. In addition, please note that NRC Form 313 requires the applicant, by signature, to verify that the applicant understands that all statements contained in the application are true and correct to the best of the applicant's knowledge. The signatory for the application should be the licensee or a certifying official of the licensee rather than a consultant.

The NRC is required to have your Taxpayer Identification Number in order to make payments (refunds). The self-addressed, stamped NRC Form 531, "Request for Taxpayer Identification Number," is enclosed.

The NRC expects licensees to conduct their programs with meticulous attention to detail and high standards of compliance. Because of the serious consequences to employees and the public that can result from failure to comply with NRC requirements, you must conduct your program according to NRC regulations, the conditions of your NRC license, and the representations made in your application. Please note that the last condition on your license indicates that "This license condition applies only to those procedures that are required to be submitted in accordance with the regulations." Therefore, any procedures submitted that were not required by regulation to be submitted, e.g., calibration of dose calibrators, will not be considered a part of your license and were not reviewed during the licensing process. These procedures will be reviewed during inspections, as necessary.

Please note that you must:

1. Operate in accordance with NRC regulations 10 CFR Part 19, "Notices, Instructions and Reports to Workers; Inspections," 10 CFR Part 20, "Standards for Protection Against Radiation," and other applicable regulations.
2. Notify the NRC in writing when:
 - a) an authorized user, authorized nuclear pharmacist, authorized medical physicist or Radiation Safety Officer permanently discontinues performance of duties under the license or has a name change;
 - b) the mailing address changes;
 - c) the name on the license changes; or
 - d) permitting an individual to function as a temporary Radiation Safety Officer in accordance with 10 CFR 35.24(c).
3. In accordance with 10 CFR 30.36(d), notify the NRC, promptly, in writing, and request termination of the license
 - a) when you decide to terminate all activities involving materials authorized under the license; or
 - b) if you decide not to acquire or possess and use authorized material.
4. Request and obtain a license amendment before you:
 - a) permanently change Radiation Safety Officers;
 - b) receive byproduct material in excess of the amount, or radionuclide, or form different than authorized on the license;
 - c) add or change the areas of use, except as allowed by 10 CFR 35.13(e) and with the appropriate notification described in 10 CFR 35.14(b)(4);
 - d) change the name or ownership of your organization;
 - e) change the address(es) of use identified on the license;
 - f) receive, prepare, or use byproduct material for a type of use that is not authorized on the license;
 - g) permit anyone to work as an authorized user, authorized nuclear pharmacist, or authorized medical physicist, except as allowed by 10 CFR 35.13(b) and with the appropriate notification described in 10 CFR 35.14(a); or

R. Ansinelli
Cumberland Cardiology, P.S.C.

3

- h) revise procedures required by 10 CFR 35.610, 35.642, 35.643, or 35.645, as applicable, where such revision reduces radiation safety.
5. Submit a complete renewal application or termination request at least 30 days before the expiration date of your license. You will receive a reminder notice approximately 90 days before the expiration date. Possession of byproduct material after your license expires is a violation of NRC regulations.

You will be periodically inspected by the NRC. Failure to conduct your program safely and in accordance with NRC regulations, license conditions, and the representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, imposition of a civil penalty, or an order suspending, modifying or revoking your license.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 8:00 p.m. EST, Monday through Friday (except Federal holidays).

Thank you for your cooperation.

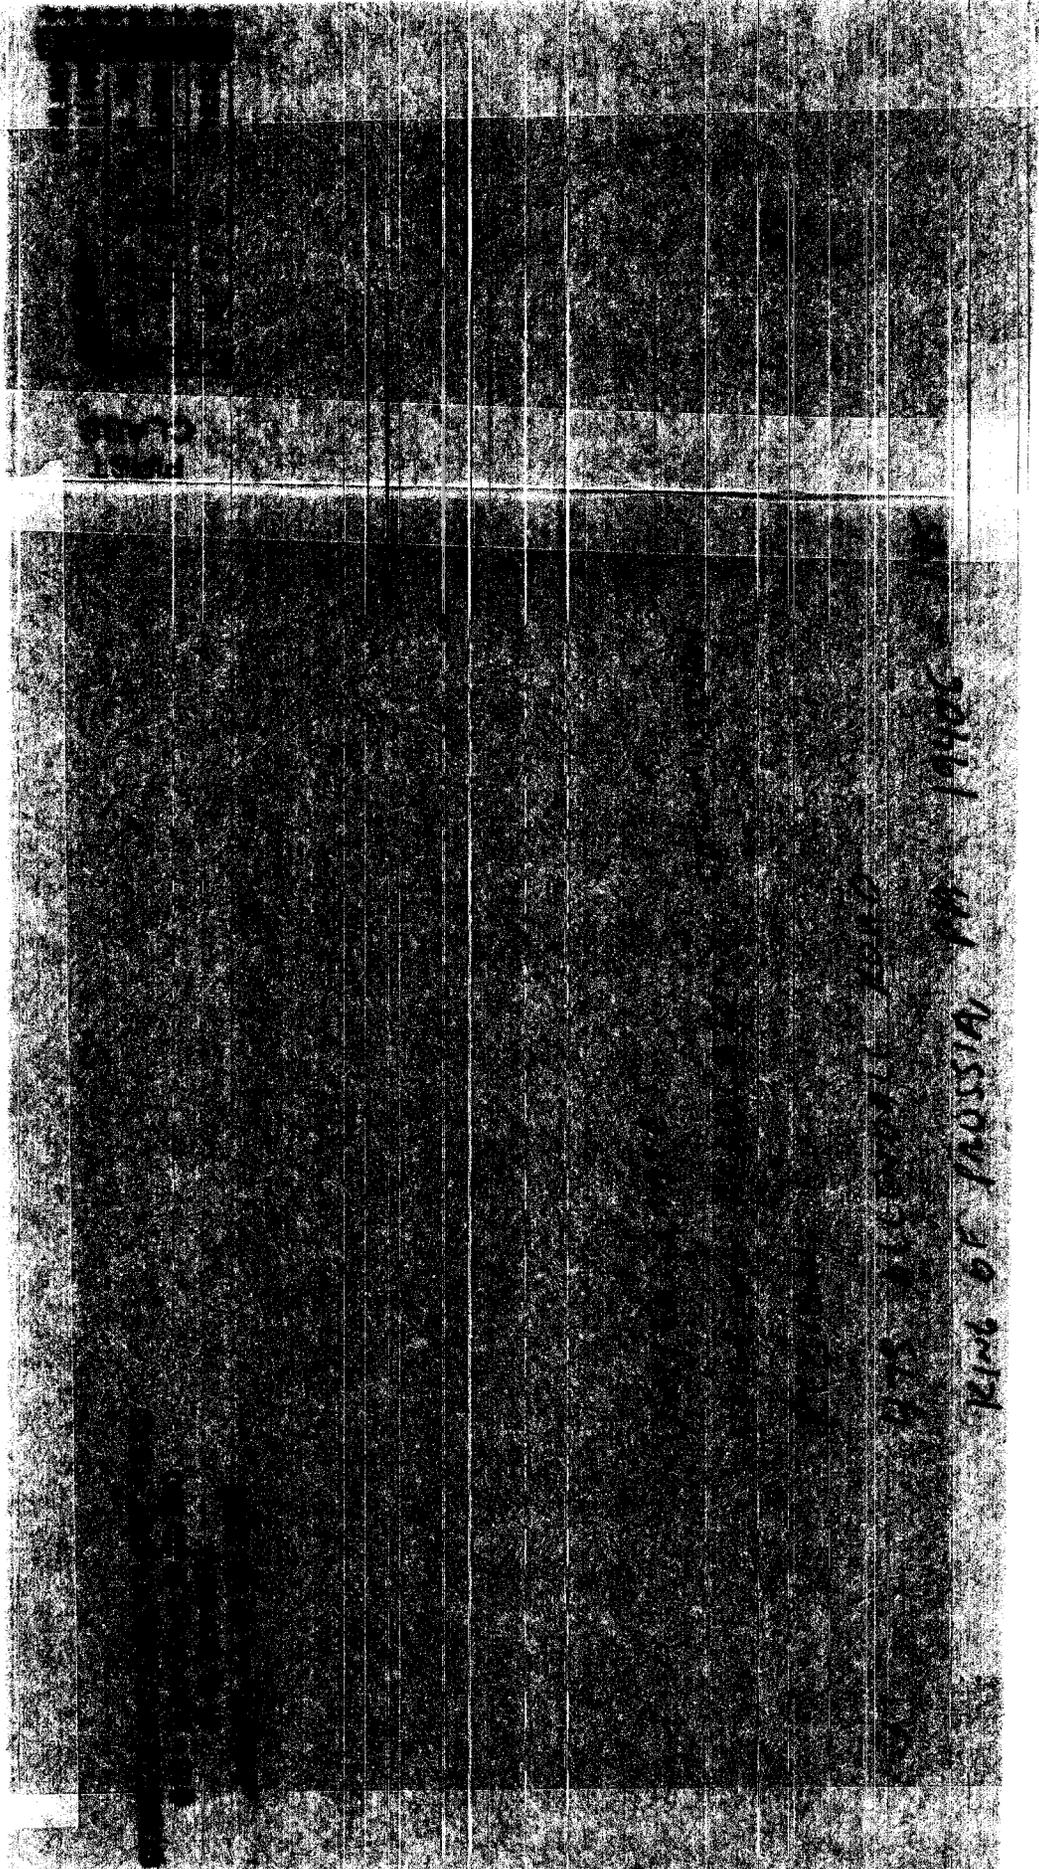

Sincerely,

Dennis R. Lawyer
Health Physicist
