Docket number: 030-31372

Subject: Replacement Nuclear Fuel Scale Authorization

T.E.S. Filer City Station would like to amend its nuclear license to reflect replacement of two of our fuel scales at the facility. This amendment includes replacement of two of our existing nuclear devices, (1) coal scale and (1) wood scale- both of which are TN Model 5034, Cs-137, 200mCi. The replacement devices are both Berthold Model LB300L, Cs-137, 16mCi, source drawing number Berthold LB8920. Disposal of the existing devices is included in the replacement contract and will be performed by Berthold Technologies, 99 Midway Lane, Oak Ridge, Tennessee, 37830.

Please direct any questions or concerns that you may have to my attention.

Sincerely,

A handwritten signature in black ink, appearing to read "Rick Kubiskey".
