Mr. Kevin Null  
U.S. Nuclear Regulatory Commission, Region III  
2443 Warrenville Road, Suite 210  
Lisle, Illinois 60532-4352

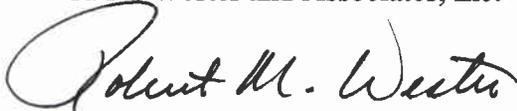

Dear Mr. Null:

Consistent with previous conversations regarding the Nuclear Regulatory Commission's surprise assignment of two additional license categories, and assessment of fees, I must request that the references within our license that cause this interpretation be removed. Therefore, all references currently found within our license, that require us to be licensed in categories 1D, and 2C, should be eliminated, and we should be returned to what we have always requested, to be licensed only in license category 3N.

I continue to be distressed by this retroactive action taken by the Commission, for what was clearly out of my control, but none the less, for which the finance group within the Commission has determined to be my sole responsibility. We have not budgeted for these additional fees at anytime and quite honestly don't see the justification, nor do we have the means by which to unknowingly allow such condition to continue. Therefore, this request is made to be effective immediately, and thereby return our license to the desired license fee category of only that of 3N.

It is important that we have this action in a timely manner so as to preclude any other license category fees from being assessed in any future annual invoices. Your understanding, and assistance with this matter is greatly appreciated.

Sincerely,  
R. M. Wester and Associates, Inc.

Robert M. Wester,  
President
