OCTOBER 29, 1986

**IE BULLETIN NO. 86-04: DEFECTIVE TELETHERAPY TIMER THAT MAY NOT
TERMINATE TREATMENT DOSE**

Addressees:

All NRC licensees authorized to use cobalt-60 teletherapy units.

Purpose:

The purposes of this bulletin are (1) to inform NRC teletherapy licensees of an identified problem with Picker/AMS teletherapy units that have Sodeco Type RP-112E treatment timers, (2) to request that licensees affected by the problem immediately provide appropriate instruction and training to teletherapy machine operators on how to recognize the problem if it occurs and take appropriate mitigating actions, (3) to request that licensees notify the NRC of the existence of the problem at their facility, and (4) to request that licensees inform the NRC of the measures taken to correct the defective teletherapy treatment timer problem that is identified as a result of this bulletin.

Description of Circumstances:

The NRC has recently received information revealing that the Sodeco Model RP-112E teletherapy timer may not function properly. Operational malfunction of the timer could result in radiation misadministrations to patients and possible excessive radiation exposures to teletherapy unit operators.

In June 1984, Picker International, the predecessor company to Advanced Medical Systems (AMS) decided to discontinue the sales and installation of Sodeco Model RP-112E teletherapy timers. Those timers were replacements for the obsolete (Liebel-Florshiem) timers in use at that time. The Sodeco replacement timer is a 5-digit countdown counter registering in one-hundredths of a minute (0.6 sec). The maximum treatment time available on this timer is 999.99 minutes. Treatment time is selected by pushing and holding the black reset pushbutton and then pressing the five white digit selector pushbuttons, which organizes the row of digits sequentially until the appropriate number is registered on the timer.

The specific problems which have been identified with malfunction of the Sodeco timers include:

8610290161

861029

PDR I&E Bulletin 86-004

1. When any number (including 000.00) is registered, the timer control switch will be closed, thus allowing treatment to be started by the operator using the key switch. When the timer is manually reset to 000.00, activating the key switch will cause the source to come on. Therefore, it is not recommended that this timer be reset to 000.00, but rather to 000.01. At this setting, should exposure be inadvertently begun, the normal timer-out sequence will reset almost immediately and terminate the exposure.
2. The Sodeco timer failed to terminate a patient's treatment upon reaching the termination set point of 000.00. Instead, the timer reset to the maximum time setting of 999.99 and reinitiated a treatment time countdown.
3. The Sodeco treatment timer was set with a beginning time between two numbers (e.g., one of the settings was placed between numbers 4 and 5). Treatment was initiated and the Sodeco timer failed to initiate a countdown to the termination setpoint of 000.00.

Action Required of Teletherapy Licensees Having Picker International/Advance Medical System Units Using Cobalt-60

1. Promptly determine whether or not your teletherapy unit has a Sodeco timer as described in this bulletin. This may be accomplished by reviewing your service records and by contacting a licensed service organization.
2. If your unit has this Sodeco timer, or in the event positive identification of the timer cannot be made, take action to have the timer identified and replaced by an authorized licensed service organization as soon as possible with an acceptable timer. If the unit must be used before timer replacement, take the following actions:
 - a. Immediately instruct all operators of the unit (i.e., technologists), both orally and in writing, of the problems that exist with this timer as identified in this bulletin.
 - b. Immediately post a warning and set of instructions at the treatment timer control informing the operators of the procedures to be followed (1) to ensure that the timer is not set in between two numbers or on 000.00, and (2) to verify the elapsed treatment time by a means other than the unit's treatment or elapsed timers.
 - c. Establish the necessary administrative controls to require operators to verify the elapsed treatment time for each treatment of humans by means other than the unit's treatment or elapsed timer until the Sodeco timer is replaced.
3. Upon replacement of a Sodeco timer, and prior to use of the teletherapy unit for treatment of humans, have an authorized licensed organization test the replacement timer to ensure that it does not exhibit the three problems identified in this bulletin.

4. Within 15 days of receipt of this bulletin, provide (a) a written report to the appropriate NRC regional office identifying whether or not your Picker/AMS teletherapy unit contains a Sodeco type RP-112E treatment timer, and, (b) if it does, identify the short-term modifications to the emergency and operating procedures that have been or are being implemented to assure safe treatment to patients undergoing teletherapy treatments.
5. Within 45 days of receipt of this bulletin, if your Picker/AMS teletherapy unit contains a Sodeco type RP-112E treatment timer, provide a written report to the appropriate NRC regional office describing the schedule for long-term resolution of the problems that are identified as a result of this bulletin.

Should a licensee determine that any action requested by this bulletin jeopardizes overall patient care and safety, the appropriate regional office shall be immediately notified of that fact and provided with appropriate justification for not implementing the requested action.

The written report shall be submitted to the appropriate Regional Administrator under oath or affirmation under provisions of Section 182a, Atomic Energy Act of 1954, as amended. Also, the original copy of the cover letters and a copy of the reports shall be transmitted to the U. S. Nuclear Regulatory Commission, Document Control Desk, Washington, D.C. 20555 for reproduction and distribution.

This request for information was approved by the Office of Management and Budget under blanket clearance number 3150-0012. Comments on burden and duplication may be directed to the Office of Management and Budget, Reports Management, Room 3208, New Executive Office Building, Washington, D.C. 20503.

If you have questions regarding this matter, please contact the Regional Administrator of the appropriate NRC regional office or one of the technical contacts listed below.

James M. Taylor, Director
Office of Inspection and Enforcement
