U.S. Nuclear Regulatory Commission  
Region II  
Attention: Dr. J. Nelson Grace, Regional Administrator  
101 Marietta Street, NW, Suite 2900  
Atlanta, Georgia 30323

Dear Dr. Grace:

Please refer to my June 27, 1986 letter in which we committed to update you monthly on the status of our investigations of allegations submitted from NRC to TVA. This is the third monthly update and includes status on the 31 allegations supplied to TVA in the May 1 and May 13, 1986 letters to S. A. White from J. A. Olskinski and the August 1, 1986 letter to Mr. White from Gary Zech.

Enclosure 1 lists the allegations that are being investigated and the present status. New for this month are two additional items for your information. First, for those nine concerns being investigated by the WBECTG, we have listed the category (OP- Operations) and subcategory report number (31104) under which those allegations are being investigated. Second, summary sheets for each of the 31 allegations are enclosed.

Enclosure 2 is a copy of two completed investigation reports for RII-85-A-0208 and RII-86-A-110. These allegations are considered closed and we request that you notify the concerned individual regarding our evaluation results.

We will update you again on the status of our investigations by late October 1986.

Please get in touch with R. F. Campbell at FTS 858-4892, if you have any questions.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

  
R. L. Gridley, Director  
Nuclear Safety and Licensing
