Subject: Answers to Question on BWXT Transfer of Control

Ken:

1. According to BWXT (Barry Cole, Licensing Manager), for the LTC, the Licensee will be B&W NOG, the owner will be B&W NOG and the operator will be B&W Technical Services.
2. The storage areas are found on page 10-1 of the Chapter 10, Decommissioning (see the June 27, 2008 submittal). It consists of all the vault areas listed. Note the clean up responsibility is under Naval Reactors. Also the Waste Treatment Operations areas and the Waste Treatment Facility is under Naval Reactors decommissioning responsibilities.

They are all under Naval Reactors and BWXT has not provided a cost estimate for these areas because it is asking for an exemption. However, the RTRT vault is not under Naval Reactors and the it is included in the cost estimate that BWXT submitted.

If you have any questions, please contact me.
Thanks,
