WASHINGTON, D. C. 20555

August 11, 1993

MEMORANDUM FOR: John Larkins Neil Thompson
Mabel Lee Mike MacWilliams
Dick Savio

FROM: Mark Stella ✓

SUBJECT: AIMS IMPLEMENTATION MEETING - 8/10/93
MEMORANDUM OF DECISIONS/ACTION ASSIGNMENTS

This memo documents the decisions reached at the August 10, 1993 meeting held to discuss the further development of the ACRS/ACNW Advanced Information System (AIMS) concept. Action assignments resulting directly from these decisions are also identified.

In attendance at this meeting were: John Larkins, Dick Savio, Neil Thompson, and Mark Stella.

Decisions reached as a result of the meeting:

1. ACRS will transfer \$30,000 of FY93 funds to IRM for the purpose of obtaining technical assistance, under the existing IRM Technology Advancement Program contract with LLNL, for the development of a functional specification and a draft system implementation plan for AIMS. The funding is expected to be sufficient for approximately 1.5 manmonths of technical support from LLNL during the remainder of FY93 and the early portion of 1QFY94.
2. ACRS intends to use the functional specification and draft implementation plan generated by this task to develop future Task Orders for LLNL support under the IRM Technology Advancement Project during FY94 and, if required, succeeding years. These additional Task Orders will secure the hardware, software, and systems integration support needed to complete the implementation of AIMS in the advisory committee TWFN facilities.
3. ACRS will provide the Task Manager for all AIMS-related effort to be performed under the LLNL Technology Advancement Program contract.

Actions required:

1. A detailed Task Order for LLNL support will be developed as soon as possible and transmitted to the IRM Technology Advancement program manager, I. Kirk. Technical input to the task order will be provided by Neil Thompson and Mark Stella.
(ACTION: Mike MacWilliams/Neil Thompson/Mark Stella)
2. Funds required to support the LLNL Support Task Order will be transferred to IRM as soon as possible.
(ACTION: Mabel Lee/Mike MacWilliams)
3. A Task Manager for this effort will be assigned in the near future.
(ACTION: John Larkins/Dick Savio)
