NOTICE

This message is intended only for the use of the individual or entity to which it is addressed and may contain information that is privileged, confidential, or exempt from disclosure under applicable law. If the reader of this message is not the intended recipient or the employee responsible for delivering the message to the intended recipient, you are hereby notified that any dissemination, distribution or copying of this communication is strictly prohibited. If you received this communication in error, please notify the sender immediately by telephone and return the original to the above address, by U.S. Mail. Thank You.

The following additional information is needed to review your request.

1. Please specify the total activity for the cesium-137 sources you wish to use.
2. As we discussed by telephone, you are already named as the Radiation Safety Officer on other NRC licenses. Please provide the following information about your availability and ability to be RSO on another NRC license.
 - Please describe the amount of time each week you will spend at the Monroe Power Plant, performing your duties as RSO.
 - Please indicate the amount of time it will take for you to respond to an emergency involving radioactive materials when you are not at the Monroe Power Plant.
 - Since you are the RSO at more than one facility, please describe any adverse impact this will have on your duties as the RSO at the Monroe Power Plant. If there will be no adverse impact, please state so, and why.
 - Please describe how you will divide your time between the NRC licensed facilities so that you will be able to adequately perform your duties as the Radiation Safety Officer.
3. Please confirm that if you will be using non-manufacturer/non-distributor supplied replacement components or parts, or the use of materials (e.g. lubricants) other than those specified or recommended by the manufacturer or distributor are evaluated to ensure that they do not degrade the engineering safety analysis. If you will not be performing any of these activities that require replacement components or parts, or use of materials, other than those specified or recommended by the manufacturer, please state so.

Please send a facsimile (630- 515-1078) of your response to the above within days 7 and refer to control 317324. Please call me at 630-829-9839 if you have any questions.

From the desk of:

Bill Reichhold
