Shearon Harris
Progress Energy Carolinas, Inc.
Docket No. 52-022 and 52-023

SRP Section: 14.02 - Initial Plant Test Program - Design Certification and New License Applicants
Application Section: 14.2

QUESTIONS for Quality and Vendor Branch 1 (AP1000/EPR Projects) (CQVP)

14.02-***

Regulatory Guide 1.68, Section C.1, "Criteria for selection of Plant Features to be Tested," provides the criteria for the selection of plant features to be tested during the conduct of the initial test program. Standard COL information item 14.4.5 of the Westinghouse DCD states that the COL applicant is responsible for testing that may be required of structures and systems that are outside the scope of the design certification. The Shearon Harris COL application addresses COL information item 14.4.5 and provides a test abstract for the following interfacing system: *Harris Lake Makeup Water System*. The NRC staff requests that Progress Energy confirm that all test abstracts necessary to address COL information item 14.4.5 for Shearon Harris Units 2 & 3 have been included in Section 14.2 of the Shearon Harris COL application.
