Tony,

I got your VM. You don't need to resubmit the DVD's in ADAMS compatible format. As we did with the Entergy submittal, only the cover letter goes into ADAMS. I'm sorry we have mis-communicated on this; I was wondering why a cover letter was taking so long. Give me a call if you'd like to further discuss.

Gina,

When we conducted a site hydrology safety audit at Bechtel offices on April 10-11, 2008, staff requested input files to aid in verifying hydrology related calculations. Those files were subsequently submitted to staff on CD-ROM in June (see attached).

Please submit a letter to us, similar to the document referenced below (ML082390124), confirming what was submitted to the NRC, to ensure that we have the transmittal of this information on file and on the docket.

Let me know if you have any questions.

Best Regards

Andrea M. Johnson
