Dear License Reviewer:

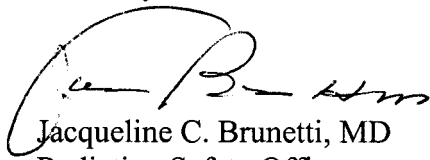

03002472

With regard to mail control number 142665 for our Radioactive Materials License No. 29-03382-01, we are enclosing the following attachment for our Sir-Spheres amendment request:

1. A letter from Sirtex confirming that Dr. Benjamin Rosenbluth has received training in the preparation and procedures associated with the delivery of Sir-Spheres.

If you have any questions regarding this application, please contact Allan Caggiano, Chief Medical Physicist at (201) 541-6369 (email: caggiano@holyname.org).

Sincerely,

Jacqueline C. Brunetti, MD
Radiation Safety Officer

Benjamin Rosenbluth, MD
Radiation Oncology
Holy Name Hospital
718 Teaneck Road
Teaneck, New Jersey 07666

Dear Dr. Rosenbluth:

Re: SIR-Spheres® Microspheres Authorized User Training and Certification

We are writing to confirm that on September 15, 2008, Sirtex staff provided detailed training for you relating to the preparation and procedures associated with the delivery of SIR-Spheres yttrium-90 microspheres that are to be injected via the hepatic artery to treat patients with unresectable liver tumors.

This letter certifies that you have been trained in accordance with the guidelines as set down by the NRC in radiation safety aspects of the delivery of SIR-Spheres microspheres. This training has included three (3) simulated set-up and delivery procedures.

Sirtex would like to thank you for your support in this process.

Yours sincerely,

A handwritten signature in black ink that reads "Craig Lawrence". The signature is written in a cursive style.

Craig Lawrence
