**SUBJECT: REQUEST FOR SCOPING COMMENTS CONCERNING THE KEWAUNEE
 POWER STATION LICENSE RENEWAL APPLICATION REVIEW**

The U.S. Nuclear Regulatory Commission (NRC or the staff) has recently received an application from Dominion Energy Kewaunee, Inc. (DEK) for the renewal of the operating license for the Kewaunee Power Station (KPS) located in Kewaunee County, WI, approximately 30 miles east-southeast of Green Bay. The NRC is in the initial stages of developing a Supplemental Environmental Impact Statement to the Generic Environmental Impact Statement (GEIS), which will document the impacts associated with the renewal of KPS. We would like your assistance in our review by providing input to the NRC's environmental review scoping process. The NRC's process includes an opportunity for public and inter-governmental participation in the environmental review. We want to ensure that you are aware of our efforts pursuant to Title 10 of the *Code of Federal Regulations* Part 51, Section 51.28(b). In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act of 1969 (NEPA).

The NRC has sent copies of this letter to the tribal contacts for the following Federally-recognized tribes: Bad River Band of Lake Superior Tribe of Chippewa Indians, Bay Mills Indian Community, Forest County Potawatomi Community of Wisconsin, Grand Traverse Band of Ottawa and Chippewa Indians, Hannahville Indian Community, Ho-Chunk Nation, Huron Potawatomi, Keweenaw Bay Indian Community, Lac Courte Oreilles Band of Lake Superior Chippewa Indians of Wisconsin, Lac du Flambeau Band of Lake Superior Chippewa Indians of Wisconsin, Lac Vieux Desert Band of Lake Superior Chippewa Indians, Little River Band of Ottawa Indians, Little Traverse Bay Bands of Odawa Indians, Menominee Indian Tribe of Wisconsin, Oneida Tribe of Indians of Wisconsin, Pokagon Band of Potawatomi Indians, Red Cliff Band of Lake Superior Chippewa Indians of Wisconsin, St. Croix Chippewa Indians of Wisconsin, Sault Ste. Marie Tribe of Chippewa Indians of Michigan, Sokagon Chippewa Community Mole Lake Band of Lake Superior Chippewa Indians, Stockbridge Munsee Community of Wisconsin, Prairie Band Potawatomi Nation, and the Citizen Potawatomi Nation. This letter was also sent to the Midwest Regional Office of the Bureau of Indian Affairs.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years. The license may be renewed for up to an additional 20 years if NRC requirements are met. The current operating license for KPS will expire in December 2013, and DEK is requesting license renewal for an additional 20 years beyond this original expiration date. The proposed action would include the use and continued maintenance of existing plant facilities

We want to ensure that you are aware of our efforts pursuant to Title 10 of the *Code of Federal Regulations* Part 51, Section 51.28(b). In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act of 1969 (NEPA).

The NRC has sent copies of this letter to the tribal contacts for the following Federally-recognized tribes: Bad River Band of Lake Superior Tribe of Chippewa Indians, Bay Mills Indian Community, Forest County Potawatomi Community of Wisconsin, Grand Traverse Band of Ottawa and Chippewa Indians, Hannahville Indian Community, Ho-Chunk Nation, Huron Potawatomi, Keweenaw Bay Indian Community, Lac Courte Oreilles Band of Lake Superior Chippewa Indians of Wisconsin, Lac du Flambeau Band of Lake Superior Chippewa Indians of Wisconsin, Lac Vieux Desert Band of Lake Superior Chippewa Indians, Little River Band of Ottawa Indians, Little Traverse Bay Bands of Odawa Indians, Menominee Indian Tribe of Wisconsin, Oneida Tribe of Indians of Wisconsin, Pokagon Band of Potawatomi Indians, Red Cliff Band of Lake Superior Chippewa Indians of Wisconsin, St. Croix Chippewa Indians of Wisconsin, Sault Ste. Marie Tribe of Chippewa Indians of Michigan, Sokagon Chippewa Community Mole Lake Band of Lake Superior Chippewa Indians, Stockbridge Munsee Community of Wisconsin, Prairie Band Potawatomi Nation, and the Citizen Potawatomi Nation. This letter was also sent to the Midwest Regional Office of the Bureau of Indian Affairs.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years. The license may be renewed for up to an additional 20 years if NRC requirements are met. The current operating license for KPS will expire in December 2013, and DEK is requesting license renewal for an additional 20 years beyond this original expiration date. The proposed action would include the use and continued maintenance of existing plant facilities

SUBJECT: REQUEST FOR SCOPING COMMENTS CONCERNING THE KEWAUNEE
POWER STATION LICENSE RENEWAL APPLICATION REVIEW

The U.S. Nuclear Regulatory Commission (NRC or the staff) has recently received an application from Dominion Energy Kewaunee, Inc. (DEK) for the renewal of the operating license for the Kewaunee Power Station (KPS) located in Kewaunee County, WI, approximately 30 miles east-southeast of Green Bay. The NRC is in the initial stages of developing a Supplemental Environmental Impact Statement to the Generic Environmental Impact Statement (GEIS), which will document the impacts associated with the renewal of KPS. We would like your assistance in our review by providing input to the NRC's environmental review scoping process. The NRC's process includes an opportunity for public and inter-governmental participation in the environmental review. We want to ensure that you are aware of our efforts pursuant to Title 10 of the *Code of Federal Regulations* Part 51, Section 51.28(b). In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act of 1969 (NEPA).

The NRC has sent copies of this letter to the tribal contacts for the following Federally-recognized tribes: Bad River Band of Lake Superior Tribe of Chippewa Indians, Bay Mills Indian Community, Forest County Potawatomi Community of Wisconsin, Grand Traverse Band of Ottawa and Chippewa Indians, Hannahville Indian Community, Ho-Chunk Nation, Huron Potawatomi, Keweenaw Bay Indian Community, Lac Courte Oreilles Band of Lake Superior Chippewa Indians of Wisconsin, Lac du Flambeau Band of Lake Superior Chippewa Indians of Wisconsin, Lac Vieux Desert Band of Lake Superior Chippewa Indians, Little River Band of Ottawa Indians, Little Traverse Bay Bands of Odawa Indians, Menominee Indian Tribe of Wisconsin, Oneida Tribe of Indians of Wisconsin, Pokagon Band of Potawatomi Indians, Red Cliff Band of Lake Superior Chippewa Indians of Wisconsin, St. Croix Chippewa Indians of Wisconsin, Sault Ste. **SUBJECT: REQUEST FOR SCOPING COMMENTS CONCERNING THE KEWAUNEE
 POWER STATION LICENSE RENEWAL APPLICATION REVIEW**

The U.S. Nuclear Regulatory Commission (NRC or the staff) has recently received an application from Dominion Energy Kewaunee, Inc. (DEK) for the renewal of the operating license for the Kewaunee Power Station (KPS) located in Kewaunee County, WI, approximately 30 miles east-southeast of Green Bay. The NRC is in the initial stages of developing a Supplemental Environmental Impact Statement to the Generic Environmental Impact Statement (GEIS), which will document the impacts associated with the renewal of KPS. We would like your assistance in our review by providing input to the NRC's environmental review scoping process. The NRC's process includes an opportunity for public and inter-governmental participation in the environmental review. We want to ensure that you are aware of our efforts pursuant to Title 10 of the *Code of Federal Regulations* Part 51, Section 51.28(b). In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act of 1969 (NEPA).

The NRC has sent copies of this letter to the tribal contacts for the following Federally-recognized tribes: Bad River Band of Lake Superior Tribe of Chippewa Indians, Bay Mills Indian Community, Forest County Potawatomi Community of Wisconsin, Grand Traverse Band of Ottawa and Chippewa Indians, Hannahville Indian Community, Ho-Chunk Nation, Huron Potawatomi, Keweenaw Bay Indian Community, Lac Courte Oreilles Band of Lake Superior Chippewa Indians of Wisconsin, Lac du Flambeau Band of Lake Superior Chippewa Indians of Wisconsin, Lac Vieux Desert Band of Lake Superior Chippewa Indians, Little River Band of Ottawa Indians, Little Traverse Bay Bands of Odawa Indians, Menominee Indian Tribe of Wisconsin, Oneida Tribe of Indians of Wisconsin, Pokagon Band of Potawatomi Indians, Red Cliff Band of Lake Superior Chippewa Indians of Wisconsin, St. Croix Chippewa Indians of Wisconsin, Sault Ste. Marie Tribe of Chippewa Indians of Michigan, Sokagon Chippewa Community Mole Lake Band of Lake Superior Chippewa Indians, Stockbridge Munsee Community of Wisconsin, Prairie Band Potawatomi Nation, and the Citizen Potawatomi Nation. This letter was also sent to the Midwest Regional Office of the Bureau of Indian Affairs.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years. The license may be renewed for up to an additional 20 years if NRC requirements are met. The current operating license for KPS will expire in December 2013, and DEK is requesting license renewal for an additional 20 years beyond this original expiration date. The proposed action would include the use and continued maintenance of existing plant facilities

and transmission lines. The KPS Site Map and Transmission System Map are enclosed for your information.

The GEIS considered the environmental impacts of renewing nuclear power plant operating licenses for a 20-year period on all currently operating sites. In the GEIS the NRC staff identified 92 environmental issues and developed generic conclusions related to environmental impacts for 69 of these issues that apply to all plants or to plants with specific design or site characteristics. For the remaining 23 issues, plant-specific analyses will be documented in a supplement to the GEIS.

A supplemental environmental impact statement will be prepared for KPS to document the staff's review of environmental impacts related to terrestrial ecology, aquatic ecology, hydrology, cultural resources, and socioeconomic issues (among others), and will contain a recommendation regarding the environmental acceptability of the license renewal action.

Please submit any comments that you may have to offer on the scope of the environmental review by December 9, 2008. Written comments should be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Electronic comments may be submitted to the NRC by e-mail at Kewaunee.EIS@nrc.gov. At the conclusion of the scoping process, the NRC staff will prepare a summary of the significant issues identified and the conclusions reached, and mail a copy to you.

To accommodate interested members of the public, the NRC will hold two public scoping meetings for the KPS license renewal supplement to the GEIS on October 22, 2008, located at the Carlton Town Hall, N 1296, Town Hall Road, Kewaunee, Wisconsin 54216. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7:00 p.m., with a repeat of the overview portions of the meeting, and will continue until 10:00 p.m., as necessary. Additionally, the NRC staff will host informal discussions one hour before the start of each session.

The KPS license renewal application and the GEIS are available on the internet at www.nrc.gov/reactors/operating/licensing/renewal/applications/kewaunee.html. In addition, the Kewaunee Public Library, located at 822 Juneau Street, Kewaunee, Wisconsin, has agreed to make the license renewal application and the GEIS available for public inspection.

The staff expects to publish the draft supplemental environmental impact statement in August 2009. A copy of the document will be sent to you for your review and comment. The NRC will hold another set of public meetings in the site vicinity to solicit comments on the draft supplemental environmental impact statement. After consideration of public comments received, the NRC will prepare a final supplemental environmental impact statement, which is

scheduled to be issued in January 2010. If you need additional information regarding the license renewal review process, please contact Sarah Lopas, License Renewal Project Manager, at 301-415-1147 or by e-mail at sarah.lopas@nrc.gov.
