Subject: Questions concerning RAI

(NOTE: This will be used as the
Documents Title in ADAMS)

10/3/2008 09:30 Mr. Price called to ask about the RAI that was sent concerning the licensee's financial assurance. Mr. Price pointed out that a Decommissioning Funding Plan had been submitted in January 2007. I reviewed ADAMS and determined this to be correct. It was coincidental that the DFP and the certification amounts were the same. I also determined that Amendment 39 was issued September 26, 2008, and that it made changes to the license concerning possession limits for the Cesium-137 irradiators. Based on the above, I requested that Mr. Price review his DFP, Statement of Intent and CFA to determine if any changes needed to be made. At a minimum, the CFA would need changing since it did not include the specifics about the irradiators. Mr. Price agreed to look over the documents in question.
