**Comments:**

Dear Ms. Cook,

This fax is to acknowledge that American Engineering Testing, Inc (AET) received your letter dated August 6, 2008, late yesterday afternoon. In your letter you requested responses to 13 deficiencies in our NRC material license renewal application by next Wednesday August 13, 2008.

AET certainly realizes the importance of responding promptly to complete the licensing process. However, because I have commitments requiring me to be out of the office several days next week, I would like to request a one week extension to the deadline to August 20, 2008.

Please let me know if this extension is acceptable to you. Thank you for your consideration of this request.

A handwritten signature in cursive script, appearing to read 'Greg Owens', is written over a horizontal line.

Gregory C. Owens, Corporate Radiation Safety Officer  
American Engineering Testing, Inc
