I talked to Dr Mylan Cohen in Maine and he says that he trained Dr Notarianni. It was doen premerger on the Deaconess license not the Beth Israel Hospital and I have my West Campus staff going though the old NEDH records to see if Dr Cohen was an authorized user

Hi Rosemary,

I spoke with Chris Smarte and asked him to have Notarianni email me with all his supervisors for his nuclear training. Hopefully we can sort this out. It may be that he read with Tom Hill.

FYI...I have been on the phone with Iris and Rosemary Kennedy this morning. The 313A box "Supervising Individual" has to be an authorized user on the license during the time Dr. Notarianni received his training (July 1996 to July 1997)...Peter Danias, MD was there at that time, but **not** on the license. This box needs to be filled out with the right person. Rosemary Kennedy is currently speaking to Nuclear Medicine to find the correct person. If anyone can help correct this problem please contact me.

Mr. Smarte,

I need the additional information concerning Dr. Notarianni in about a weeks time or you will need to resubmit the amendment request. I can, if requested, completed the other physician request at this time and you will need to just resubmit Dr. Notarianni when you get the additional information.

Good Morning Dennis,

I have attached a copy of the newly signed 313A form by Thomas Hauser, MD for M. Notarianni, MD and have also faxed it to you as well. I hope this satisfies the problem. Please call me at 301-580-5328 or 703-641-0500.

Thanks for your help in this matter.

Sincerely, N. Christian Smarte, RSO
