On October 6, 2008, NRC staff (Tanya Simms, Charles Cox, and Seshagiri Tammara) participated in a telephone conference call with Duke representatives and observers (see below) regarding the staff's detailed review of the Lee Units 1 and 2 COL application. The purpose of the call was to discuss requests for additional information (RAI) #836 and 837.

The discussion focused on the applicant's request for clarification of airport information and permissible limits for toxic chemicals regarding COLA information reviewed in FSAR chapter 2, Section 2.2.1-2.2.2 and 2.2.3.

At the conclusion of the call, staff informed Duke that RAI 836 would be issued by the staff. Additional information was provided to the staff for review for RAI 837. At the conclusion of the staff's review RAI 837 will be issued to the applicant.
