AUG 1 9 1985

MEMORANDUM FOR: Edward L. Jordan, Director
 Division of Emergency Preparedness and
 Engineering Response
 Office of Inspection and Enforcement
 Nuclear Regulatory Commission

FROM: *Richard W. Krimm*
 Richard W. Krimm
 Assistant Associate Director
 Office of Natural and Technological Hazards

SUBJECT: Medical Services Information for the Watts Bar
 Nuclear Generating Station (WBNGS)

This is in partial response to your request of May 28, 1985, for medical services information on several nuclear power Near-Term Operating Licenses (NTOL). For these NTOL's, you requested that the Federal Emergency Management Agency (FEMA) confirm that the offsite emergency plans include a list of local or regional medical facilities which have capabilities to provide treatment for radiation exposure.

The following extract from the Tennessee Multi-Jurisdictional Radiological Response Plan for the WBNGS Station radiological emergency offsite preparedness plans is attached:

- ° Appendix 1, Annex F, "MEDICAL FACILITIES FOR RECEIVING VICTIMS OF A RADIATION INCIDENT", pages F-3 through F-6.

Twenty-four hospitals and medical centers in the vicinity of the WBNGS are listed that have been identified for treatment of radiologically contaminated individuals. An additional 29 facilities in Tennessee and three facilities in Northwest Georgia have been identified.

This information is confirmation that a list of medical facilities has been identified for use in case of an emergency at Watts Bar.

If you have any questions, please contact Mr. Robert S. Wilkerson, Chief, Technological Hazards Division, at 287-0200.

**APPENDIX I, ANNEX F
MEDICAL FACILITIES FOR RECEIVING VICTIMS
OF A RADIATION INCIDENT**

I. PURPOSE:

The purpose of this Appendix is to identify medical facilities with capabilities for receiving victims of a radiation incident at a fixed nuclear facility.

II. SCOPE:

This medical response program will be available to all persons within Tennessee.

**III. MEDICAL FACILITIES IDENTIFIED FOR TREATMENT OF
RADIOLOGICAL CONTAMINATED PATIENTS:**

- A. The primary facility in Tennessee for treatment of gross radiologically contaminated patients and radiation casualty patients is listed below and shown in Tab A.

Radiation Emergency Assistance Center/Training Site
Oak Ridge Hospital of the Methodist Church
Tyrone Road and Tennyson Road
Oak Ridge, TN 37830

- B. Facilities identified for treatment of radiologically contaminated patients in the vicinity of the Plant are listed below and their locations shown on the map in Tab A.

Each hospital has received a 7.5 hour course that includes the following subject areas:

1. introduction and radiation overview;
2. atoms and matter radioactivity;
3. radiation dosimetry;
4. radiation surveying and dosimetry monitoring;

5. accidents involving radioactivity;
6. emergency handling and decontamination procedures; and
7. survey of existing hospital facility
