			50-327	50-439
			50-328	

TVA NUCLEAR QUALITY ASSURANCE (NQA) PLAN (TVA-NQA-PLN89) - ANNUAL UPDATE

In accordance with 10 CFR 50.54(a)(3) and 10 CFR 50.55(f)(3), changes to the quality assurance program that do not reduce commitments must be periodically submitted to NRC. Enclosure 1 is an annual update of such changes to the TVA NQA Plan. This update addresses recent TVA organization changes within Nuclear Power as well as other changes that reflect refinements of the NQA Plan since the time that Revision 0 of the plan was implemented. This update also includes changes that were previously accepted by NRC on August 2, 1990. In addition, this update deletes from Section 4.0, "Organization," nonquality-related responsibilities that are recited in TVA's "Nuclear Power Organization Description" (TVA-NPOD89). The first update for TVA-NPOD89 will be submitted to NRC by March 17, 1991.

Enclosure 2 cross references the changes from Revision 0 to Revision 1 and provides appropriate justifications.

Revision 1 of the plan is being distributed to holders of controlled copies and is planned to be implemented no later than February 25, 1991.

If you have any questions or if we can be of any assistance, please telephone P. J. Hammons at (615) 751-2736.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
