October 6, 2008

License: 29-04333-01

To Whom It May Concern,

This letter is to request an amendment to our radioactive materials license as follows:

Please add Dr. Aruna Patel to our license for the following use categories 35.300, 35.400 and Iridium 192 for uses with High Dose Rate Remote Afterloading. She was previously on license 29-14017-01 as an authorized user for these materials.

Please add the use of depleted Uranium to Murray Becker, MD and Anthony Yudd, MD.

Please remove the following individuals from this license: Eli Finkelstein, MD and Jeffrey Sterling, MD.

Please expedite the request to add Dr. Patel to the license for the above categories. I will need her added to the license prior to October 31<sup>st</sup>.

Any questions regarding the above matter should be directed to Linda Veldkamp at 908-994-8751. Thank you for your cooperation in this matter.

Sincerely,

Linda Veldkamp, MS, DABR  
Chief Physicist/ Radiation Safety Officer:
