

October 22, 2008

APPLICANT: LUMINANT GENERATION COMPANY LLC  
FACILITY: COMANCHE PEAK COMBINED OPERATING LICENSE APPLICATION  
SUBJECT: SUMMARY OF THE OCTOBER 7, 2008, PUBLIC MEETING TO DISCUSS  
THE COMBINED LICENSE APPLICATION FOR COMANCHE PEAK  
NUCLEAR POWER PLANT, UNITS 3 AND 4.

On October 7, 2008, a Category 1 public meeting was held between the U.S. Nuclear Regulatory Commission (NRC) staff and Luminant Generation Company LLC (Luminant) at NRC Headquarters in Rockville, Maryland. The purpose of the meeting was to discuss the combined license (COL) application for Comanche Peak Nuclear Power Plant, Units 3 and 4. A list of meeting attendees is provided as Enclosure 1. The NRC and Luminant presented handouts which are shown in Enclosures 2, 3, and 4. These handouts can be accessed through the Agencywide Documents Access and Management System (ADAMS) Accession Numbers ML082680250, ML082820423 and ML082830028.

The NRC opened the meeting by presenting a brief overview of the staff's process for performing acceptance reviews of COL applications. Next, Luminant presented an overview of the COL application. This allowed the NRC staff to become familiar with the overall structure and format of the Comanche Peak COL application. Luminant discussed various aspects of the COL application, using a variety of personnel to conduct this presentation. This provided the NRC staff an opportunity to meet the Luminant staff, who developed the application. At the conclusion of this meeting, there was general consensus that this had been an informative meeting and additional conference calls may be held on specific COL application topics, as needed.

Members of the public were in attendance, but Public Meeting Feedback forms were not received. Please direct any inquiries to me at 301-415-1544, or via email at [stephen.monarque@nrc.gov](mailto:stephen.monarque@nrc.gov).
