Dear Mr. Reichhold:

In response to amendment No. 10 to our NRC Material License No. 21-26770-01, we never received 35.300 materials in our facility.

We had 10 CFR 35.300 added in hopes to accomadate patients in this rural area, but then never had any requests. In the future, we may request it be added again if we have a physician that meets the NRC requirements to use 35.300 materials.

Thank you for making this amendment and should you have any further questions please feel free to contact me at (989)673-3141 ext.2247.

Sincerely,

*Stacey Roth, CNMT, RT(N)*
