Re: Application for Radioactive Materials License

Dear Sir or Madam,

Enclosed please find per your request supplemental information to the request for a new radioactive materials license for Kendall Griffith, M.D., Cardiovascular Associates of the Virgin Islands.

At this time the consultant RSO has no RSO commitments at any other medical imaging facility. The RSO will be the RSO only for the start up and commencement of operations. The onsite, in-house representative will then be amended onto the license as the RSO. The consultant RSO has personal experience with the representative and will be implementing the procedures and compliance with the regulations and ALARA. The consultant will remain available to assist the new RSO after the amendment to the license. Dr. Kendall Griffith will serve as the in-house representative during the RSO's absence. The consultant will be available 24/7 for telephone assistance. There will be qualified staff on hand to assist if the consultant deems it desirable. However the consultant can be on site in 24 hours or less.

It is our hopes that the above has answered all your additional questions. In the event that it does not we authorize NC Systems at 303.541.0044, to respond to any questions associated with this license application.

Please feel free to contact me if you need any additional information.

Sincerely,

Dr. Kendall Griffith
