1. A. Please note that 10 CFR 35.50(b)(1), states, in part, that the proposed Radiation Safety Officer has completed a structured educational program consisting of both: (i) 200 hours of classroom and laboratory training in the following areas: (A) Radiation physics and instrumentation; (B) Radiation protection; (C) Mathematics pertaining to the use and measurement of radioactivity; (D) Radiation biology; and (E) Radiation dosimetry.

It appears that Ms. Rhonda Cragin has only received 40 hours of classroom and laboratory training.

Please clarify this discrepancy.
