Terry Reis, Deputy Director
Division Materials Safety and State Agreements
Office of Federal and State Materials and
Environmental Management Programs
U.S. Nuclear Regulatory Commission
T8-E24
Washington, D.C. 20555-0001

Dear Terry Reis:

Enclosed is a copy of the revisions to the proposed Utah Radiological Health Rules R313-21 "General Licenses." The proposed revisions will be made available for public comment on November 1, 2008 with a request for comments by December 1, 2008. We request NRC comments by December 15, 2008. The proposed regulations are identified by line-in/line-out text and correspond to the following equivalent amendments to NRC regulations.

<u>Rats ID</u>	<u>Title</u>	<u>State Section</u>
• None	10 CFR 39 "Rules Of General Applicability To Domestic Licensing Of Byproduct Material"	R313-21

We believe that adoption of these revisions satisfies the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Programs (FSME) Procedure SA-200.

If you have any questions, please feel free to contact me at 801-536-4250 or Mario A. Bettolo of my staff at 801-536-4250 or mbettolo@utah.gov.

Sincerely,

Dane Finerfrock
Utah Radiation Control Program Director
