Betsy,

It looks like early January before the final status survey document will be ready.

Thanks, for the update on B1103A.

Thanks again,
Richard

Rich

Rough estimate is early January. Does this work?

Richard,

What is the status of the report for the final surveys? I just need an update, if you have an guesstimate for the report coming to us.

For the other site 1103A, the EA was published, and I have to wait out the 60-day period for an requests for hearing. So far - one. The 60 days is up NOV 17 or thereabouts. At that time, I will issue the amendment and probably close the control number (unlike how we have kept it open for the other locations...changing policy about keeping such actions open between approval to do surveys and the final report...even those we know have proceeded with the surveys.)
