Re: Troxler Monitor Badges and Troxler Nuclear Gauge Certification Training:

Dear Sam:

On your site inspection of our facilities on September 23-24 regarding use of the Troxler Nuclear Gauges by our summer co-op students on Houghton County Road Construction Projects it is apparent that you would like more training and monitoring of our seasonal users and deem that our training isn't sufficient for their intended use. Due to the time of the year, budget constraints and past monitoring of myself since 1997 with extremely low doses on my Troxler Monitor Badges I feel it isn't necessary to certify our summer help in the short period of time that they work for the Houghton County Road Commission.

This letter will prevail for all summer or seasonal help that is hired and use the nuclear gauge by the Houghton County Road Commission from this time forward.

Respectfully Submitted,

Robert E. Besson  
Radiation Safety Officer  
Construction Inspector
