SUBJECT: SUMMARY OF OCTOBER 23, 2008, CATEGORY 2 MEETING
REGARDING THE NATIONAL FIRE PROTECTION ASSOCIATION
STANDARD 805 FREQUENTLY ASKED QUESTION PROCESS

On October 23, 2008, the U.S. Nuclear Regulatory Commission (NRC) staff held a meeting, via teleconferencing, with stakeholders and the public to discuss Frequently Asked Questions (FAQs) at plants that are adopting National Fire Protection Association (NFPA) Standard 805. NRC staff provided comments on FAQ 08-0052, and technical agreement was reached on two FAQs (07-0039 and 08-0047). The NRC staff shared a proposed draft 9 of FAQ 06-0008. Licensees agreed to submit a final counterproposal on FAQ 08-0042 by November 6, 2008. The participants also agreed that FAQ 08-0049 should be withdrawn because its resolution would require a long term research effort. Licensees and the NRC staff discussed the remaining open FAQs. The participants determined that both industry stakeholders and the NRC staff needed to continue to work on the remaining open FAQs.

Participants agreed that the next FAQ meeting would take place on December 4, 2008.

The meeting handouts are available in the Agencywide Documents Access and Management System. The accession number for the NRC comments is ML083010061. The accession number for the proposed FAQ revision is ML083010063. The Updated September NEI NFPA 805 Task Force FAQ Log, a meeting handout, is available at ML083010060. Two other handouts are available at ML083010055 and ML083010057.

A list of meeting attendees is enclosed with this memorandum.
