Subject: Calvert Cliffs COLA Delay in submitting Supplements

Due to multiple issues with security markings discovered during the staff's SUNSI review of the Calvert Cliffs RCOLA Revision 3, UniStar is delaying their submittal of the corrected EP and geology sections. They were not able to tell me how long the delay is. They are reviewing the entire application to ensure security markings are applied only where appropriate.

I will update you after UniStar tells me when they will submit the supplements.

There are obviously schedule implications.

Thank you for your patience.
