Department of the Army  
Commander USA MEDDAC  
ATTN: MCXP PMD RP  
126 Missouri Avenue  
Box 1232  
Fort Leonard Wood, MO 65473

Dear Mr. Mattern:

Enclosed is Amendment No. 45 to your NRC Material License No. 24-15095-01 and a Notice of Violation. Please note that the changes made to your license are printed in **bold** font.

In your letter dated February 6, 2008, you requested the addition of an authorized user, Derek Staner, M.D., to use 10 CFR 35.100, 200 and 300 materials at your facility. The information submitted to support Dr. Staner's training and experience was not sufficient to add him to your license at this time.

In addition, you requested that the only authorized user of 10 CFR 35.300 material to be deleted from your license. Since Dr. Staner cannot be added to your license at this time, we have removed the authorization for 35.300 material. When you amend your license to add a physician authorized to use 35.300, we will reinstate its use.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability.

Sincerely,

A handwritten signature in cursive script, appearing to read "Toye L. Simmons".

Toye L. Simmons
