I have reviewed the one comment and NRC response regarding groundwater in the North Anna Scoping Summary Report. This appears to be the only comment falling clearly within my primary area of expertise with regard to this site. I also scanned the surface water comments for other comments bearing significantly on groundwater issues. I have no comments on any of the comments or responses.

All  
Attached is the North Anna scoping summary report for comment.  
I apologize for not getting to you all sooner, but due to the reopening of the comment period we were pressed for time. OGC has already reviewed and approved the responses. I would ask that if you really don't have a **big** problem with the comments and response, then yield to leaving them as is.

Please provide comments to Laura and I by COB Friday.  
This has to be issued Tuesday of next week.  
Again I apologize for the inconvenience.  
Alicia
