Thomas J. Dobrowski  
Radiation Safety Officer  
DLZ Indiana, LLC  
316 Tech Drive  
Burns Harbor, IN 46304

Dear Mr. Dobrowski:

Enclosed is Amendment No.12 to your NRC Material License No. 13-20218-01 in accordance with your request. Please note that the major changes made to your license are printed in bold font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note, we have not removed the locations of use at 2211 East Jefferson Boulevard, South Bend, Indiana, 36 S. Pennsylvania Street, Indianapolis, Indiana, and 6039 Miller Avenue, Gary Indiana, at this time because we need additional information regarding your close-out surveys for these locations of use. Please note, we cannot authorize the release of your "old" storage areas until we have received and reviewed a copy of the results of your close-out surveys. Please submit a close-out survey for each facility that includes the following information:

- a. Please list the radionuclides that were actually used or stored at each "old" storage site.
- b. Please submit information on any leaking sealed sources used or stored at the "old" storage site. Information needs to include the isotope, amount of leakage, contamination of other areas or personnel, description of the cleanup, and disposition of the source(s). If you did not have any leaking sources, please state so. Please submit a copy of the last leak test for the sealed sources.
- c. Please confirm that all radionuclides have been removed from the "old" storage facility and transferred to the new storage area.

Please submit your close-out survey as additional information to **mail control 317401**.

Please be advised that your license expires at the end of the day, in the month, and year stated in the license. Unless your license has been terminated, you must conduct your program involving byproduct materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, note that you must:

~~Official Use Only - Security-Related Information~~

The enclosed document contains sensitive security-related information.  
When separated from this cover letter this letter is uncontrolled.

T.J. Dobrowski

1. Operate in accordance with NRC regulations 10 CFR Part 19, "Notices, Instructions and Reports to Workers; Inspections," 10 CFR Part 20, "Standards for Protection Against Radiation," and other applicable regulations.
2. Notify NRC, in writing, within 30 days:
  - a. When the Radiation Safety Officer permanently discontinues performance of duties under the license or has a name change; or
  - b. When the mailing address listed on the license changes.
3. In accordance with 10 CFR 30.36(d) and/or license condition, notify NRC, promptly, in writing, and request termination of the license:
  - a. When you decide to terminate all activities involving materials authorized under the license; or
  - b. If you decide not to complete the facility, acquire equipment, or possess and use authorized material.
4. Request and obtain a license amendment before you:
  - a. Order byproduct material in excess of the amount, or radionuclide, or form different than authorized on the license;
  - b. Add or change the areas of use or address or addresses of use identified in the license application or on the license; or
  - c. Change ownership of your organization.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Also, please note, we have marked your license as "Official Use Only - Security-Related Information" as required by NRC Regulatory Issue Summary 2005-31. NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents.
