**Technical Meeting with Industry Regarding the Fire-Induced Circuit Failure Issue Closure  
November 19, 2008  
U.S. Nuclear Regulatory Commission Executive Boulevard Building - Rockville, Maryland  
Agenda**

Purpose: To discuss with the Nuclear Energy Institute (NEI) and industry stakeholders the technical items involved in fire-induced circuit failure issue closure.

9:00 Welcome

9:15 Discuss technical issues associated with fire induced circuit failure closure:

Treatment of full flow flow-diversion valves

Discuss multiplicity with regard to whether multiple actuations of equipment important to safe shutdown can result in a single function that would require III.G protection.

Other topics as needed

11:45 Open floor for public comments

12:00 Adjournment
