Dear Mr. Young:

Enclosed is Amendment No. 05 renewing your NRC Materials License No. 13-32049-01 for a period of one year as was agreed to in our telephone conversation on October 23, 2008. This extension will allow time for your submittal of a renewal application, following the guidance in NUREG – 1556, Vol. 18, "Program Specific Guidance About Service Provider Licenses", dated November 2000, and our proper review of the renewal application.

Please review the enclosed document carefully and if there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please be advised that your license expires at the end of the day, in the month, and year stated in the license. Unless your license has been terminated, you must conduct your program involving byproduct materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

Loren J. Hueter

Control No. 317102: Re request by letter dated 4-23-08 to renew License No. 13-32049-01.

SUMMARY

In our telephone conversation, the following items were discussed:

1. I noted that NUREG-1556, Vol. 18, "Program Specific Guidance About Service Provider Licenses", dated November 2000, is the current guidance document we use in evaluating license applications for applicable information and acceptable commitments needed to renew subject license. Therefore Mr. Young was asked to submit a renewal application using Appendix B (NRC Form 313) and Appendix C (Suggested Format for Providing Information Requested in Items 5 through 11) of the referenced NUREG document. Also, he was asked to review all the referenced documents in the current tie down condition of the license and address in the current renewal application those commitments made, which served as a basis for authorizations permitted in the current license, which the licensee wishes to retain.

2. Also, due to the time needed to adequately address the above needs, it was agreed to renew the license, without change, at this time for a one year period (April 30, 2009), to allow time for submittal and proper review of the renewal application.
