SUBJECT: SEIKO CORPORATION OF AMERICA, REQUEST FOR ADDITIONAL
INFORMATION CONCERNING APPLICATION FOR AMENDMENT TO
LICENSE, CONTROL NO. 142853

Dear Ms. Marione:

This is in reference to your letter dated September 29, 2008 requesting to terminate Nuclear Regulatory Commission License No. 29-19080-01. In order to continue our review, we need the following additional information:

1. The Final Status Survey Report submitted in your September 29, 2008 letter states that it is "Privileged and Confidential." The final survey is required to be publically available. You may request for us to return this report and resubmit a survey that is not privileged and confidential or you may state that this report may be publically released. Additionally, proprietary information being submitted must be accompanied by an affidavit as stated in 10 CFR 2.390. If you wish to submit an affidavit then please follow the guidance in 10 CFR 2.390.
2. Your facility was licensed for tritium from April 18, 1985 through May 6, 1998. Please submit surveys associated with tritium usage or state that no tritium was used at your facility.
3. Prior to termination of a license, 10 CFR 30.35(g), 30.36(k)(4) and 30.51 require that you submit to the NRC certain records. These records would be applicable to all of your locations of use since the license was issued in August 31, 1979. Please submit the following records, or explain why such records are not applicable.
 - a. for unsealed materials with half-lives greater than 120 days, records for disposal made pursuant to 10 CFR 20.2002 (alternate disposal procedures, including burial authorized prior to January 28, 1981), 20.2003 (disposals to the sanitary sewerage system), 20.2004 (incineration of wastes), 20.2005 (disposal of specific wastes including liquid scintillation cocktail and animal tissue), and 20.2103(b)(4), evaluations of effluent releases.

- b. records important for decommissioning as described in 30.35(g). Examples of such records include but are not limited to: records of contamination, identifying the radionuclides, quantities and concentrations; as-built drawings and modifications of structures and equipment in restricted areas and locations of inaccessible contamination such as buried pipes; a single list, updated at least every 2 years, of areas to which access is limited for the purpose of radiation protection (restricted areas); and records related to the provision of financial assurance.

No license will be terminated until the required records are received by the NRC. Records may be transferred to the U.S. Nuclear Regulatory Commission, Region I, 475 Allendale Road, King of Prussia, Pennsylvania 19406.

- 4. In support of an environmental assessment related to the release of your facility:
 - a. Confirm the name of the facility to be released is The Seiko Building at 1111 MacArthur Boulevard, Mahwah, New Jersey.
 - b. State the size of the building in square feet. Confirm the area that was used for materials was 6,000 square feet.
 - c. Describe the surrounding area, such as "residential", "industrial", "commercial", "mixed residential/commercial", etc.
 - d. State when you ceased licensed activities.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material; Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498. The GPO is open from 7:00 a.m. to 8:00 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 142853. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5366.

If we do not receive a reply from you within 30 calendar days from the date of this letter, we will assume that you do not wish to pursue your application.

Sincerely,
