

## MANITOWOC COUNTY EMERGENCY SERVICES DIVISION

---

Nancy H. Crowley, R.N., C.E.M.  
Division Coordinator  
Emergency Management / Joint Dispatch

October 22, 2008

John Daily, Senior Project Manager  
Nuclear Regulatory Commission  
Kewaunee License Renewal Project

Mr. Daily:

I provide this letter in my capacity as the Emergency Management Director for Manitowoc County as you consider the renewal of the Kewaunee Power Station's operating license. I have been especially impressed with the high value Dominion Energy Kewaunee places on employee, plant, and community safety.

During my twenty seven years as the Manitowoc County Emergency Management Director, I have coordinated and facilitated numerous emergency drills and exercises with the Kewaunee Station. There has been an obvious improvement in the quality of those activities in recent years, with a noticeable interest shown by Dominion Corporate staff through increased attendance at county and state planning meetings and actual drill and exercise events. That involvement demonstrates that this company takes plant and offsite safety seriously, which is something that I value as Manitowoc County's Emergency Management Director.

Sincerely,

  
Nancy Crowley, Coordinator  
Emergency Services
