U.S. NUCLEAR REGULATORY COMMISSION  
EXPORT LICENSE

LICENSE NUMBER: XSNM3545

Page 2 of 3

Conditions

**Condition 1 --** Licensee shall file with the Customs Officer or the Postmaster two (2) copies, in addition to those otherwise required, of the Shipper's Export Declaration covering each export and mark one (1) of such copies for transmittal to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001. The following declaration should accompany or be placed on the Shipper's Export Declarations for such exports:

"This shipment is being made pursuant to specific license number (**specific license number**) filed at (**location of customs office where license is filed**), on (**date license was filed**). This license expired on (**expiration date of license**), and the unshipped balance remaining on this license is sufficient to cover the shipment described on this declaration."

**Condition 2 --** Exports authorized in any country or destination, except Country Groups Q, S, W, X, Y, and Z in Part 370, Supplement No. 1, of the Comprehensive Export Schedule of the U.S. Department of Commerce.

**Condition 3 --** This license covers only the nuclear content of the material.

**Condition 4 --** The material to be exported under this license shall be shipped in accordance with the physical protection requirements for special nuclear material in 10 CFR 73.

**Condition 5 --** Special nuclear material authorized for export under this license shall not be transported outside the United States in passenger-carrying aircraft in shipments exceeding (1) 20 grams or 20 curies, whichever is less, of plutonium or uranium 233, or (2) 350 grams of uranium 235.

**Condition 6 --** This license authorizes export only and does not authorize the receipt, physical possession, or use of the nuclear material.

**Condition 7 --** The licensee shall complete and submit an NRC Form 741 for each shipment of source material exported under this license.

**Condition 8 --** The licensee shall advise the NRC in the event there is any change in the designation of the company who will package the nuclear material to be exported under this license, or any change in the location of the packaging operation, at least three (3) weeks prior to the scheduled date of export.

**Condition 9 --** If, while within U.S. jurisdiction, the material to be exported under this license is not protected in transit utilizing the services and equipment of the Department of Energy (DOE/National Nuclear Security Administration (NNSA) Office of Secure Transportation in accordance with the DOE requirements and directives for the transport of such material, then the licensee must comply with applicable 10 CFR Part 73 regulations on physical security measures including any NRC-required enhancements thereto and must obtain NRC's approval of the physical security plan for transportation prior to the shipment campaign.
